Make it a double: A method for the selective $\text{I}^{\pm}, \text{I}^{\pm}$ -dehydrogenation of amides in the presence of other carbonyl moieties under mild conditions has been developed. This strategy relies on electrophilic activation coupled to in situ selective selenium-mediated dehydrogenation. Mechanistic experiments suggest formation of an electrophilic Se IV species.

Fusion power is a theoretical form of power generation in which energy will be generated by using nuclear fusion reactions to produce heat for electricity generation. In a fusion process, two lighter atomic nuclei combine to form a heavier nucleus, and at the same time, they release energy. This is the same process that powers stars like our Sun. Devices designed to harness this energy are ...

The Survivors History Group was founded in April 2005 to value and celebrate the contribution that mental health service users/survivors have made and are making to history. It is working towards a comprehensive history on this site and in a book. It will also preserve historical material in digital form on this site, and in printed and other forms.
