all the responses here were wrong, anyway. The bank 2(drivers side) cam position sensor is towards the rear of the cylinder head on top. You take out the battery and windshield washer reservoir, pull the two breather lines off the top of the valve cover, and with a wobble or stubby wrench you can get to it.

A method to read/write your ECU image from your car needs to be available or developed. Once an ECU image is available in unencrypted form, the image needs to be reverse engineered and a RomRaider map definition created.; Try checking your specific car's community forums first to see if anyone has made any progress on the above requirements.
