

technical documentation user manual pdf

In engineering, technical documentation refers to any type of documentation that describes handling, functionality and architecture of a technical product or a product under development or use. The intended recipient for product technical documentation is both the (proficient) end user as well as the administrator / service or maintenance technician. In contrast to a mere "cookbook" manual ...

A technical writer is a professional information communicator whose task it is to transfer information (knowledge) between two or more parties, through any medium that best facilitates the transfer and comprehension of the information. Technical writers research and create information through a variety of delivery mediums (electronic, printed, audio-visual and even touch).
