

trusted semiconductor solutions pdf

Trusted Platform Module (TPM, also known as ISO/IEC 11889) is an international standard for a secure cryptoprocessor, a dedicated microcontroller designed to secure hardware through integrated cryptographic keys.

Trusted Platform Module - Wikipedia

Trusted Computing (TC) is a technology developed and promoted by the Trusted Computing Group. The term is taken from the field of trusted systems and has a specialized meaning. With Trusted Computing, the computer will consistently behave in expected ways, and those behaviors will be enforced by computer hardware and software. Enforcing this behavior is achieved by loading the hardware with a ...

Trusted Computing - Wikipedia

Zilog is a trusted supplier of application-specific embedded system-on-chip (SoC) solutions for the industrial and consumer markets. From its roots as an award-winning architect in the microprocessor and microcontroller industry, Zilog has evolved its expertise beyond core silicon to include SoCs, single-board computers, application-specific software stacks and development tools that allow ...

Zilog

The Most Trusted in Millimeter Wave silicon designs. Milliwave's mission is to accelerate the adoption of mm-wave products across a wide range of markets by improving time-to-market and product quality for our partners in the semiconductor and technology industries.
