A pump-jet, hydrojet, or water jet is a marine system that creates a jet of water for propulsion. The mechanical arrangement may be a ducted propeller (axial-flow pump), a centrifugal pump, or a mixed flow pump which is a combination of both centrifugal and axial designs. The design also incorporates an intake to provide water to the pump and a nozzle to direct the flow of water out of the pump.

Pump-jet - Wikipedia

¶¶In my surfing over the web I have run across a number of sites which have parts and/or shop manuals. Here is a list. I do not host most of these, they are just links to other web sites.
