**Overview Introduction to Computer Engineering â€“ EECS 203**

CS-102 Logical Organization of Computers . Aims There are two views of computer architecture. The traditional view, dating back to the IBM System/360 from the early 1960's, is that the architecture of a computer is the programmer-visible view of the machine, while its implementation is the province of the hardware designer.

**Academic : Department of Computer Science : University of Pune**

The paper examines the opportunities in and possibilities arising from big data in retailing, particularly along five major data dimensionsâ€”data pertaining to customers, products, time, (geo-spatial) location and channel.
